E-CONFERENCE ON GREEN AND SAFE CITIES 2022 (IEGRESAFE 2022)

With advancements in science and applied technology, urbanization has also increased challengingly. In line with this trend, the International Conference on Green and Safe Cities (IeGRESAFE 2022) was conducted virtually on 20 & 21 September 2022. It provides an international platform that allows researchers, academics and industry experts to share and exchange ideas on their latest research, experience and knowledge. The International E-Conference on Green Safe Cities (IeGRESAFE) 2022 is the first conference of its series. It is one of the initiatives of the Green Safe Cities Research Group (GreSAFE), which will be held twice a year. IeGRESAFE 2022 is a collaborative effort between GreSAFE, the University of Queensland School of Architecture and the Perak Branch UiTM Green Campus Committee. This collaboration aims to foster good relations and improve the quality of the academic community at the university.

IeGRESAFE 2022 enables collaboration between science and technology in academia and industry and international networking. Attendees will find the various activities helpful in bringing together diverse groups of scientists and technologists from multiple disciplines to generate new ideas, potential collaborations and business opportunities. The theme of the conference is "Maintaining Resilient, Beautiful and Safe Cities for Better Quality of Life", with 31 sub-areas under the theme. The conference had a keynote address from the Deputy Secretary General (Environment), Ministry of Environment and Water YBrs. Puan Noor Afifah Abdul Razak on Climate Resilient in Sustainable Cities. It is a very great and significant partnership for all researchers.

EXTERNAL EXAMINERS VISIT FOR MASTER OF SCIENCE IN GREEN ARCHITECTURE (AP763)

External examiners' visits for the Master of Science in Green Architecture (AP763) programme was successfully organized on the 13th and 14th of December 2022 at Universiti Teknologi MARA Perak Branch, Seri Iskandar Campus. Two external examiners were invited, YBhg Professor Dato' Dr Aldrin Abdullah from University of Science Malaysia (USM) and Ar Muhammad Qhawarizmi Norhisham from Praktika Sdn Bhd. The visit started with the official welcoming ceremony presented by the Head of the Centre for Postgraduate Studies, Gs Dr Nor Eeda Haji Ali, representing Executive Management of Universiti Teknologi MARA Perak Branch, Seri Iskandar Campus. Other respected guests were invited as well,

CBE @ UiTM SARAWAK

BUILDTECH BOWLING TOURNAMENT

Building Department Student's Society UiTM Samarahan known as Buildtech Crew was successfully organized a Buildtech Bowling Tournament participated by lecturers and students from Diploma in Building / Building Technology UiTM Samarahan, UiTM Sarawak Branch on Friday 16th of December 2022. It was held at Megalanes King Center, Kuching Sarawak.

In semester October 2022-February 2023, Building Department received new batch of students for AP126 Diploma Building Technology and current part 3 students of Diploma in Building AP116. .

SEBINA ARCHICULTURE 2022

Sebina ArchiCulture ; Reborn organized by Architecture Students Association, Archizone7 held in UiTM Sarawak Kampus Samarahan, with the participation of 85 students from the Department of Architecture. This program aims as an Architectural Pre-Workshop for preparing the student before joining the Architectural

Student Workshop which is held annually in collaboration with Pertubuhan Arkitek Malaysia (PAM). In addition, this program also to strengthen the relationship among students and lecturers of the department and hone the student talents.

RE-ACCREDITATION BOARD OF QUANTITY SURVEYING MALAYSIA (BQSM)

On 16th June 2022, the Diploma of Quantity Surveying Programme had undergone a re-accreditation process and was awarded accreditation for 4 years starting from 1st July 2022 until 30th June 2026. Throughout 2022, the Quantity Surveying Department has organized numerous activities with Diploma and Bachelor of Quantity Surveying students. Among the activities that had been organized were Alumni Sharing Session for BQS601 Measurement of Construction Works V, Effective Literature Review Workshop, Site Visit for Semester III Diploma in Quantity Surveying students

CBE @ UiTM PERLIS

GEOMATIC RESEARCH INNOVATION COMPETITION 2022 (GRIC 2022)

This competition uses the method of presentation using posters and exhibition materials by Final Year AP220 Bachelor's Degree students related to their final year research(FYP) projects.

JUNIOR ROCKET TECHNOLOGY EXPLORATION

The program was organized by the Center for Surveying and Geomatics, UiTM Perlis Branch with the collaboration of the research group High Energy Material Research Laboratory (HEMREL), UiTM Shah Alam and also the Malaysian Space Agency (MYSA) in conjunction with National Science Week 2022- Minggu Sains Negara (MSN) Keluarga Malaysia 2022 in October which is themed Space.

KARNIVAL GEOMATIK

The Centre of Studies of Surveying Science & Geomatics, UiTM Perlis Branch together with the Perlis Department of Environment (DOE) successfully hosted the Karnival Geomatik 2022. The main goals of this program were to promote the Geomatics field to the local communities, and as a joint event to celebrate National Environment Day. This was in line with the theme of the event, "Geomatik Pemangkin Kelestarian Alam".

Walking helps us to think better

COMMENT BY DR. SUKRI ALI
WALKING is the most common mode of activity to get around in most everyday life.
Walking is not just a means to an end...

overweight based on the National Health and Morbidity Survey 2015.
This suggests that we are more comfortable being a sedentary lifestyle coupled with the advancement of technology...

Paradigma perubahan tanah wakaf

PERSPEKTIF
DR. MUHAMMAD AZWAN SULAIMAN
halia sebenarnya adalah ketiadaan oleh ALLAH SWT dan selagi hayat yang ada...

Pelaksanaan perubahan tanah wakaf secara korporat yang diamalkan di sana mampu memberi pulangan lebih daripada nilai tanah wakaf itu sendiri...

pu memaksimumkan potensi tanah tersebut.
Secara ringkas idea itu kelihatan normal, namun agar jargon kemerdekaan...

MELABIR DALAM HARTANAH

Anda boleh menaman modal secara langsung secara fizikal atau tidak langsung dalam saham
PADA 15 Februari 2019, saya telah menghadiri seminar...

Peranan kewangan sangat penting dalam membina hutang baru tidak berkemampuan dan cuba selesaikan hutang sedia ada
"Peranan kewangan sangat penting dalam membina hutang baru tidak berkemampuan dan cuba selesaikan hutang sedia ada..."

'Manage rapid urbanisation'

PERSEKUTUAN
ANNA MUSTHAFA
su pembangunan tanah wakaf sering menimbulkan pelbagai isu dan persoalan. Antara isu yang wujud adalah tanah wakaf terburai dan tidak dibangunkan dengan baik.

Melayia will see creation of slums that will increase financial and social cost to mitigate situation if conditions do not improve, say experts
This phenomenon led to rapid population growth in Kuala Lumpur...

Isu ekonomi, kualiti hidup pertaruhan PRU15

ANALISIS MUKA 16
DR. MUHAMMAD AZWAN SULAIMAN
Walaupun secara makro, kenaikan OPP ini adalah baik kepada ekonomi negara...

Isu ekonomi lejang (gig economy), keusahawanan kecil (start-up), Perusahaan Kecil dan Sederhana (PKS), ekonomi digital yang sedia ada kini perlu diberikan satu perantaraan dengan berkesan.

DEALING WITH TECHNOLOGY

Six ways to avoid information overload

With digital information reaching millions of gigabytes, we are drowning in a sea of information. The term 'information overload' coined by Bertalan Myron Gross, is a term used in computer systems that are unable to process a large volume of data.
Conversely, when people are involved in multiple activities - meetings, consultations and discussion in a group - their creative thinking declines.
Keeping information in our heads not only impacts our cognition, but it also makes us overthink, anxious and irritable, which can lead to heart attack, high blood pressure and depression.
